

WE CONNECT PEOPLE . PLACES . IDEAS .**The ZICO Trust Services**

We believe successive generations should be independent, self-sufficient and have the capacity to generate their own wealth. Our focus is simply not on wealth sustainability but on how intergenerational wealth can be replicated and multiplied.

Regardless of how much you start with, whether you create an RM500,000 or RM100 million Trust, you can make your financial legacy last in perpetuity and be purposeful, provided you plan it well. That is what we are here for – to help you carefully plan a Trust to protect and preserve your family's wealth for generations to come.

Start now and create a lasting legacy for generations to come so that your future generations never have to start at zero. Instead of just giving them money, give them boundless and recurring opportunities.

INTER VIVOS TRUST - PLATINUM

The Platinum Trust is designed to do precisely that – the focus of the Trust is the preservation of generational wealth and the creation of a financial legacy passing down significant financial resources to future generations.

Our team is committed to helping you structure your family wealth for the benefit of generations to come. To do this, we have developed a sophisticated tool to help manage your estate and ensure a smooth transfer of wealth to your named beneficiaries.
